Chang Hwa Hsien  
Taiwan, R.O.C.

Dear Mr. Chen:

The National Institute for Occupational Safety and Health (NIOSH) has reviewed your request dated October 1, 2004. This request was for an approval of the new model AP0028 N95 filtering facepiece respirator without an exhalation valve.

This request is granted. Approval is granted for English language only on all documentation. It is the manufacturer's responsibility to correctly translate materials desired in languages other than English. Approval number TC-84A-4175 has been assigned. This respirator is approved for protection at an N95 particulate efficiency level.

The diskette enclosed with this letter contains the final respirator approval label. The abbreviated label has been accepted as submitted. The cautions and limitations which apply to this approval are on the approval label. Only those assemblies affected by this request, or where new approval numbers are assigned apply to this approval action. Production approval labels cannot include information on unapproved configurations.

The approved assembly consists of the parts as listed on the approval label plus the assembly matrix. Parts are to be marked with the numbers indicated on the approval label in a legible and permanent manner (marking cannot be removed without evidence of its previous presence).

This certificate of approval is not an endorsement of the respirator by NIOSH, and such endorsement shall not be stated or implied in advertisements or other publicity. However, you may publicize the fact that this respirator has met the requirements of Title 42, *Code of Federal Regulations* (CFR), Part 84.

Page 2 - Mr. Steven Chen – TN-13740

No changes may be made to any respirators and accompanying documentation without prior written approval of NIOSH. Requests for changes must be submitted to NIOSH and a modification of this approval must be granted before changes are made.

Sincerely yours,

Roland J. BerryAnn  
Branch Chief  
Respirator Branch  
National Personal Protective Testing Laboratory
